# MILITARY.FINANCE

## WELCOME TO

# MILITARY.FINANCE

Military.Finance (\$MIL) is a BEP20 token issued on the Binance Smart Chain. We are focused on providing financial and emotional support to our military veterans when they return home from the battlefield through direct donations and partnerships with individuals and organizations.

## The Military.Finance Story

Our team understands that the comfortable life we live is because our heroes are working around the clock to protect us. We are so thankful. We saw this as an opportunity to leverage our talents, treasures, and relationships to bring resources to our veteran community.

We are committed to transparency and will continue to innovate to bring value to our community. Be on the lookout for updates, events, and what comes next.

## PancakeSwap

PancakeSwap is a Binance Smart Chain based Decentralized Exchange (DEX) for swapping BEP-20 tokens. PancakeSwap will allow the community the ability to exchange their BNB for \$MIL.

## Bitmart

BitMart provides diversified system functions including spot trading, futures contract trading, and over-the-counter trading. BitMart's trading system has a robust security mechanism and reliable underlying architecture, which provides buyers with a dependable trading experience.

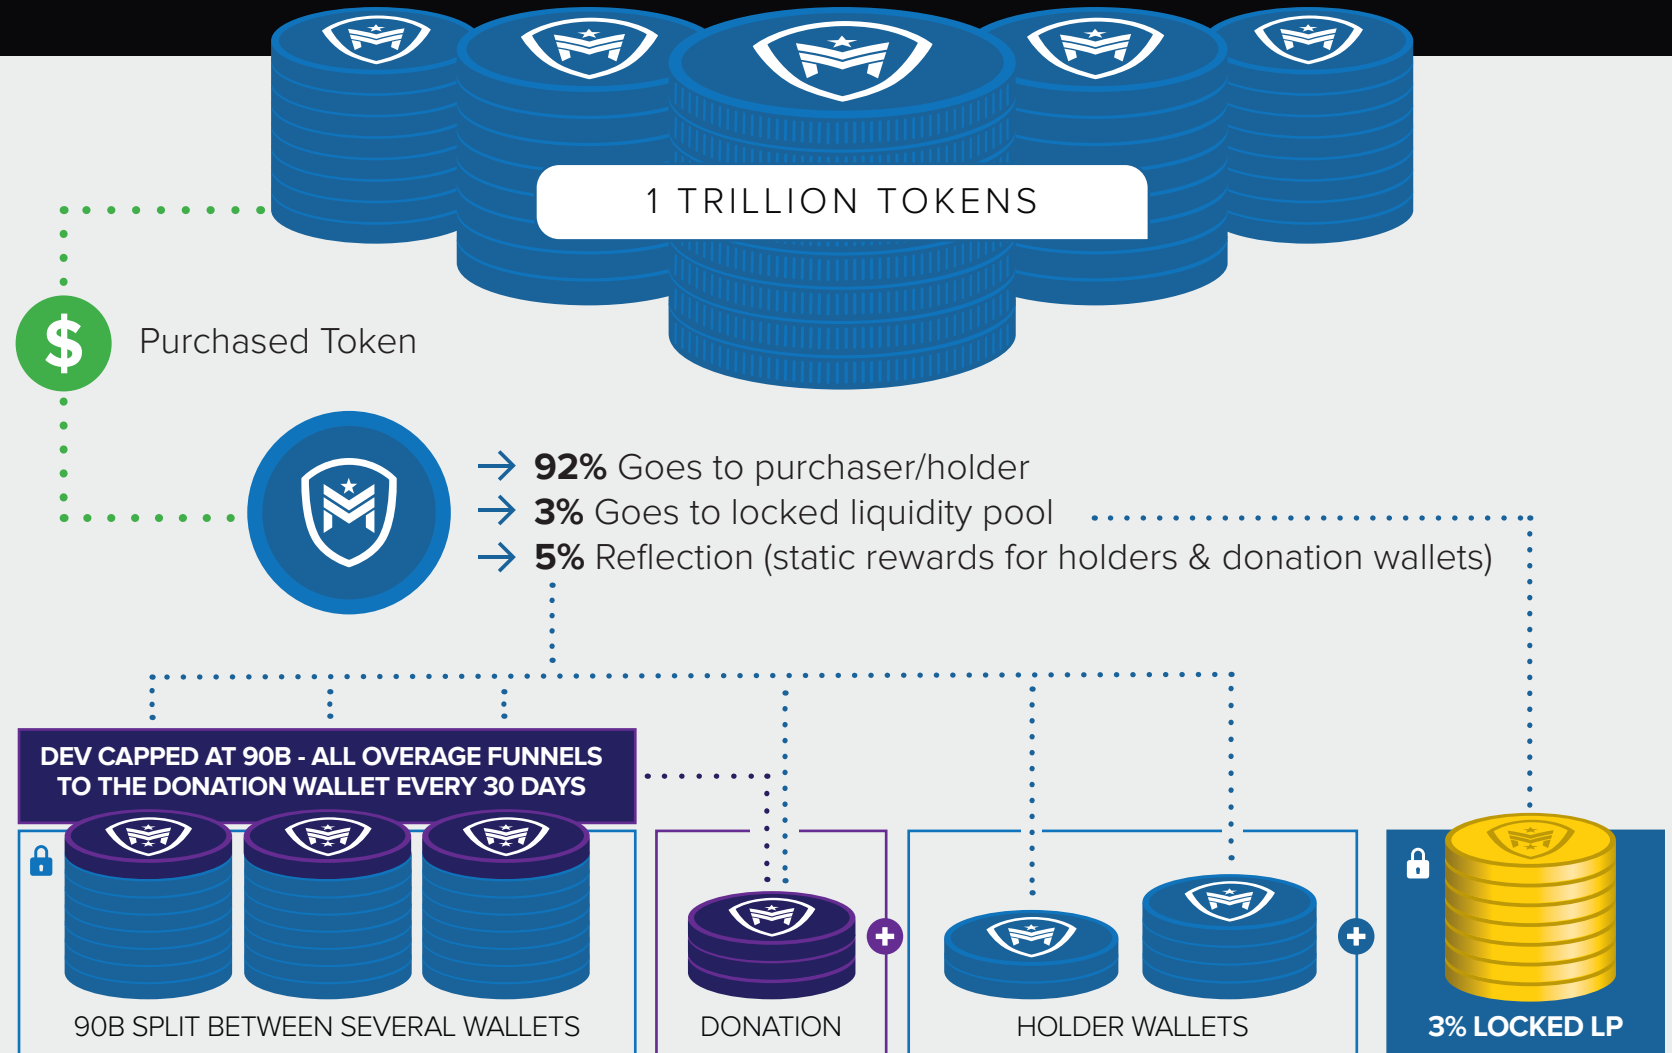

## Tokenomics

Military.Finance launched on May 10, 2021 with a total supply 1,000,000,000,000.

The Military.Finance (\$MIL) token was created to reward both holders and charities.

Several dev wallets are set with a 90B cap, funneling access tokens into the donation wallet.

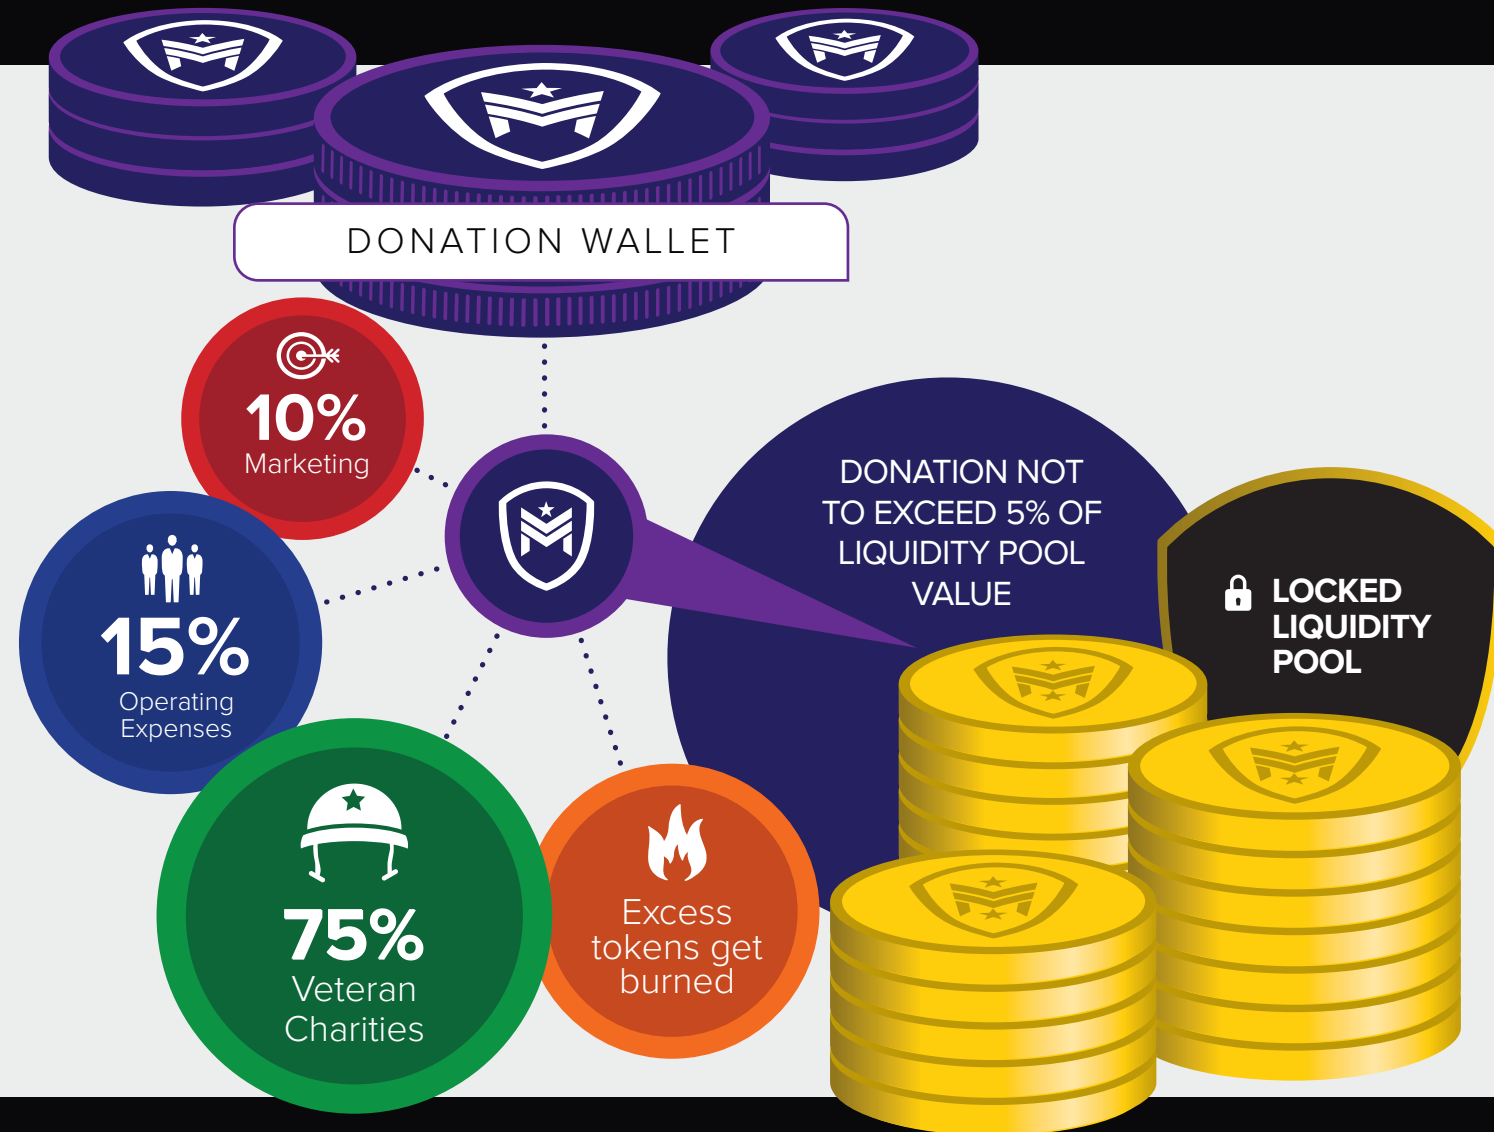

All reflections are distributed automatically with no human interaction and cannot be adjusted. Military.Finance has no ownership or control of the contract or reflections.

## Donation Distribution

Once \$MIL reaches 5,000 holders, the coins in the donation wallet will be transferred according to these specifications:

- 75% transferred to veteran charities
- 15% for operation expenses
- 10% marketing to grow the value of the coin
- In the event the donation wallet exceeds 5% of the liquidity pool the remaining tokens will be burned. This insures the market stays healthy and makes the token deflationary.

## Roadmap

It started as an idea with a few motivated and passionate people. The journey is just beginning, but the ability to connect reputable causes is going to change how people think about the world of crypto.

Create Military Token  
Establish Team  
Establish Brand  
Discover Solid Non-Profit  
Donation Recipient

Marketing Push  
Weekly AMA/Discord Stream  
Certik Audit  
Solidity Audit  
White Paper Distribution

First Donation  
CEX Listing  
CG Listing  
\$MIL NFT Mining Equipment  
Submission to Exchanges (NDA)

**Create Ongoing Charitable Events**  
- Surprise A Soldier  
- Help A Vet  
- A Soldier's Wish  
- PTSD Psych Treatment Program  
K-9 Rescue for PTSD  
**Educational Programs**  
- \$MIL University

Reveal Partnerships (NDA)  
dApp Platform for Donations  
Historically Significant NFTs
